

Sustainability Policy

Bumble & Bloom Childcare

We are committed to reducing our environmental impact and helping children develop respect and love for the natural world.

Our approach

- We embed care for the environment in daily routines, activities and conversations with children.
- We choose reusable, recycled, second-hand or plastic-free resources wherever possible.
- We reduce, reuse and recycle waste and compost food scraps where practical.

Energy, water and waste

- Lights, taps and appliances are switched off when not in use.
- We follow local recycling guidance and separate paper, plastic, glass and food waste.
- Cleaning products are eco-friendly and non-toxic where possible.

Food and consumables

- All meals are plant-based which supports a lower carbon footprint.
- We buy locally, seasonally and in bulk where practical, and reduce food waste through careful planning.
- We use reusable cloths, water bottles, cups and lunch containers.

Learning about nature

- Children spend time outdoors every day, exploring gardens, parks and local green spaces.
- We grow herbs, fruit and vegetables and talk about where food comes from.
- We celebrate seasonal changes, wildlife and simple sustainability projects.

Review

- This policy is reviewed at least annually and updated to reflect new ideas from children, families and staff.
